"I recently took Blanca Noel's Healing Stones class. Blanca is an excellent teacher, and her ability to awaken my own intuitive understanding of stones was amazing. As a result of the class, I am confident in my ability to select the proper stones for healing. I have already incorporated stones into my meditation practice to enhance my own physical well being. I whole heartily recommend this class for anyone who has a desire to develop their intuitive skills for healing."

"I was privileged to attend a remarkable class given by Blanca Noel on the incredible properties of stones and crystals. Through her instruction, it was amazing to feel the difference in clarity, wisdom and healing ability of the stones. I have implemented Blanca's instructions with my personal stones, and we are now one big happy family. Working with Blanca is always a joyous experience as she brings her love, integrity and enthusiasm to whatever she imparts."

## The Art of Soul Dialoguing

The Art of Soul Dialoguing is a powerful healing modality that focuses on transforming the energy field in and around the body so that balance and well-being can be restored on all levels.

For over 45 years Blanca Noel studied various healing modalities. Through her work with hundreds of clients in her own private practice, Blanca blended the best techniques with her own keen inner knowing, and the Art of Soul Dialoguing was born.

Blanca carefully polished and compiled The Art of Soul Dialoguing information into a simple format that is accessible to everyone. Her vision is that her students will develop the ability to travel through the different energetic dimensions as they heal themselves and others.

The Art of Soul Dialoguing contains four modules. The modules can be taken separately.

### Energy Perception

#### 6-10 Hours of Experiential Activities

We are spiritual vibratory beings. In order to practice soul dialoguing, one must first develop the sensitivity to perceive different energy patterns. This experiential class will develop your skill of noticing the vibrations of everything in the universe. Working with trees, plants, foods, and inanimate objects, you will hone your natural ability to tap into your intuition and decode the information that you receive.

The Energy Perception class is the foundation of the soul dialoguing work and is strongly suggested for those both familiar and unfamiliar with energy work.

### Soul Dialoguing I

#### 8-12 Hours of Lecture and Hands-On Practice

This module covers the basic soul dialoguing process. Students will learn:

- The physical changes that occur when energy is disrupted.
- Assessing clients' energy before and after sessions.
- The steps of a soul dialoguing treatment.
- Techniques for working with each chakra.
- Techniques to protect their own energy when working with others.

**Prerequisite:** Energy Perception strongly recommended.

### Soul Dialoguing II

This course is for those who wish to practice soul dialoguing on clients with special needs. Students will learn to use the methodology on

- Clients who have had recent surgeries.
- Clients who have issues such as muscle contractions, tremors, swelling, or other physical concerns.
